Hi Jeff,

Currently we are meeting at the SJVAPCD offices before the inspections, approximately 7:30 am and plan to leave there at 8 am for an approximate arrival time of 8:15 am.

Let me know if Gina will be joining us.

Best,

Scott

Hi Jeff,

We have invited the Air District to participate they are planning on attending as far as I'm aware. We had a meeting yesterday with the district (Jennifer Ledergerber and John Stagnaro) about the planned inspections.

I have heard that the facility is planning on installing air emissions controls. A goal of the inspection would be to identify the equipment configuration on site currently to properly evaluate the correct specifications of controls that would be needed.

I am ok with Regina joining us. The main focus of the inspection trip is to conduct oil and gas inspections with other CARB and SJV folks so EPA will have 4 inspectors on this inspections (2 brand new ones) to cover more ground at large oil and gas production sites and we'll be conducting some training over the course of the week. I've been coordinating with Juan Osornio, in the Fuels Branch at CARB on these inspections.

I don't have any specific dates in January that I am not available for this type of meeting with the districts at this time although I likely will have to be out a week for more inspections at some point in January. It might be worth having a call between you and I about the Bakersfield facility between when we have an inspection and when we have this meeting with the districts.

Let me know if you want to discuss further.

Best,

Scott

Hi Jeff and Kristen,

# Ex. 7(A)

We'll let know the results of these inspections, but please don't hesitate to reach out if you would like to discuss.

Best,

Scott
